

Installation Instruction

Jaguar Land Rover VCI

Note: This Jaguar Land Rover (JLR) approved J2534 Vehicle Communication Interface (VCI) can only be used with Symptom Driven Diagnostics (SDD) software 142.00 and later.

To use the JLR VCI, install the device drivers using the following instructions:

1. Power up the SDD machine
2. Press the 'Windows Key' or select the 'Windows Start' menu
3. Select 'All Programs'
4. Select 'JLR'
5. Select 'SDD'
6. Select 'VCI Device Drivers'
7. Select 'JLR VCI'
8. A pop up window will be displayed - 'Welcome to the JLR VCI setup wizard' - select 'Next'
9. A pop up window will be displayed - 'Select Installation Folder', select 'Everyone' and then select 'Next'
10. A pop up window will be displayed - 'Confirm Installation', select 'Next'
11. A progress scroll bar will be displayed and will close automatically once completed
12. A pop up window will be displayed - 'Installation Complete'
13. Select 'Close'
14. Shut down the SDD machine
15. Connect the VCI device to the vehicle
16. Connect the VCI device to the SDD machine with the USB cable
17. Power up the SDD machine
18. Start the SDD application
